

Wireless 2 Button Keypad Budget-Friendly, Installer-Friendly, User-Friendly

With the introduction of the Control4® 2 Button Keypad, which can be substituted as a 3-way switch in a Control4 lighting system, it's more affordable than ever to control lighting from anywhere in the home. Delivering seamless wireless connectivity and pure ease of installation, the 2 Button Keypad marks the beginning of a new era for home automation.

The 2 Button Keypad makes it easy to control lighting from a local switch or a remote switch anywhere in the home — without adding any new wiring. And because it automatically becomes part of the Control4 network, the 2 Button Keypad can also be controlled from the homeowner's touch screen, keypad, or remote control.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Beautiful On Any Wall

- **Elegant design** — Sleek profile fits beautifully in any home.
- **Customizable LED lights** — Choose any color to match décor. Easily adjust the brightness and color of each LED.
- **Custom screw-less faceplate** — For a clean, graceful look. Also works with decorative Decora® style screw-on faceplates.

Intuitive For Every User

- **Ergonomic design** — Curved button follows natural curves and motion of fingertips.
- **Easy to use** — Designed so that everyone will know how to use it from the moment they see it.
- **Two-LED design** — Top and bottom LED lights provide instant user feedback.

Intelligent From Front to Back

- **Anywhere control** — Add lightning control anywhere in the house, even if the lighting load is not attached to the switch.
- **Anything control** — Can be used as a 3-way switch that controls anything in the house.
- **Wireless** — Intelligent, reliable, wireless connectivity using the ZigBee™ (802.15.4) mesh networking standard.

Easy To Install

- **Plug and play ease** — Pre-programmed to work right out of the box.
- **Wireless** — No special cables to pull through the home.
- **Slim line back box profile** — Leaves more room for wiring, making installation easier.
- **Decora wall plate compatible** — Fits any standard wall plate for complete customization.

Affordable For Every Customer

- **Surprisingly inexpensive** — Whole home lighting control is finally affordable.
- **Reduced installation costs** — Wireless technology makes installation quick and easy in any home.
- **Scalable, low cost solution** — Begin and expand home automation with lower entry costs.

*Turn on lights in a darkened house from the garage. **Light up** the entire kitchen with the **press of a button** from the hallway. **Switch off** basement lights without walking downstairs.*
