

# Wireless Keypad Pure Simplicity Meets Powerful Control

Available in three-button or six-button configurations, the Control4® Wireless Keypad can control anything in a house, from a group of lights to music volume to a customized series of security events. Designed with a true “less is more” philosophy, the Wireless Keypad lets people control multiple events with the push of a single button, making it easier than ever to enjoy complete room control from a single, easy-to-use keypad. And with its intelligent wireless connectivity, the Wireless Keypad offers an easy-to-install solution that works beautifully in any home, whether it’s 100 years old or brand new.

It’s all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

## Features and Benefits

### **Beautiful On Any Wall**

- **Elegant design** — Sleek profile fits beautifully in any home.
- **Customizable LED lights** — Choose any color to match décor. Easily adjust the brightness of each LED light.
- **Custom screw-less faceplate** — For a clean, graceful look. Also works with decorative Decora® style screw-on faceplates.

### **Easy To Install**

- **Absolute integration** — Integrates seamlessly with the Control4 network and home electronics.
- **Wireless** — No special cables to pull through the home.
- **Slim line back box profile** — Leaves more room for wiring, making installation easier.
- **Decora wall plate compatible** — Fits with any decorative wall plate for complete customization.

### **Intelligent From Front to Back**

- **Unlimited programming options** — Each button can be programmed to control anything in the house or yard.
- **Customizable keycaps** — Easily identify each button’s function on the keypad with customized, engraved keycaps.
- **LED status** — Provides feedback of the status and operation of the keypad.
- **Wireless** — Intelligent, reliable, wireless connectivity using the ZigBee™ (802.15.4) mesh networking standard.

### **Affordable For Every Customer**

- **Surprisingly inexpensive** — Programmable keypads have never been so affordable.
- **Reduced installation costs** — Wireless technology makes installation quick and easy in any home.
- **Scalable, low cost solution** — Begin and expand home automation with lower entry costs.

**Set the mood** for any room with the touch of a single button. **Tap** the “night-time” button in a baby’s nursery and the lights fade down, a soothing lullaby fills the room, and the baby monitor switches on in the kitchen. Then **touch** the “romance” button in the living room and the lights dim, the fireplace turns on, and Marvin Gaye queues up.
