Navigator Software — Home Control Made Simple

Control4® Navigator software makes home automation control easier than ever before. Navigator is an included part of every Control4 interface and has been specifically designed with homeowners in mind. Navigator is a flexible, elegantly designed interface program that makes even the most complex automation tasks easy for the user to accomplish.

With its clear, customizable interface and simple navigation to any automated function, Navigator makes it easy for homeowners to control more with less effort — and absolutely zero confusion. Whether using the on-screen interface, the Touch Screen interface or the Mini Touch Screens, Navigator controls appear and act the same, making the user experience consistent across all platforms. Even the LCD displays on the Control4 components will have Navigator menus similar to those found on the touch screens.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Beautiful and Intuitive Design

- **Great-looking interface** — Choose from great-looking, high-quality skins, all offering clear, intuitive navigation.
- **Intuitive navigation** — Main menu displays all automation options in simple language and clear icons. Listen to music, watch TV, enjoy movies, control lights and more with a few simple taps, no complicated menu structure to follow.

Customization Made Easy

- **Customizable menus** — Create custom menu pages so homeowners can easily control any imaginable automation function or sequence.
- **Customizable skins** — Custom skins, beyond the standard selection, provided can easily be developed - and shared - by dealers using the Navigator Developers' Kit.
- **Easy updates** — Receive updates with new features and skins automatically over the Internet or by e-mail.

Easy Setup and Use

- **Simple setup** — Set up Navigator and customize menus for Touch Screens and on-screen interfaces in just minutes using Control4 Composer software.
- **Menu list control** — Use Navigator in non-graphical mode with the Control4 System Remote Control and Wireless LCD Keypad.

Control a complex home theater in a few simple touches. See all your digital music and choose songs for multiple rooms in the house. Turn off all the lights in the house with the push of a single button.
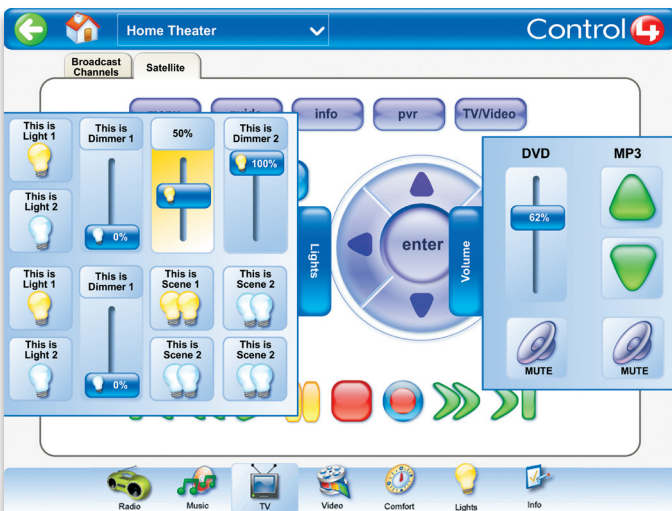

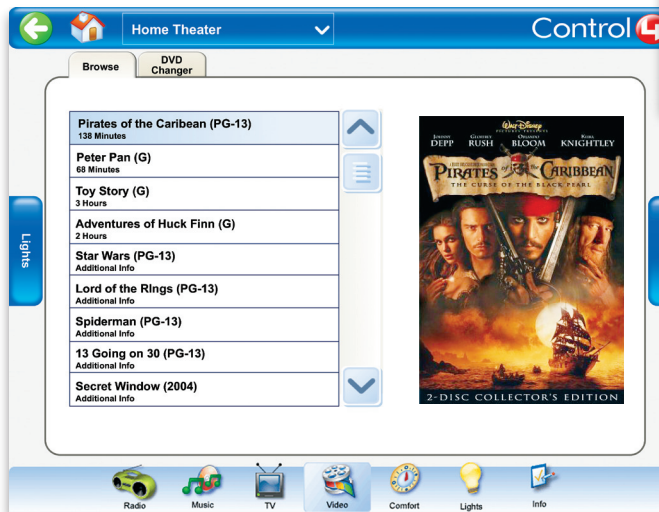

Control4
