With its sleek, compact design and its ability to control any automated function in the home, the System Remote Control liberates homeowners from their cluttered and confusing collection of remote controls. Featuring bi-directional communication, a backlit LCD screen, and ZigBee™ (802.15.4) wireless connectivity, the System Remote Control puts home automation information and control right in the palm of the homeowner's hand.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Intuitive and Elegant Design

- **Compact form factor** — No other remote offers so much control in such a small package.
- **Ergonomic design** — Designed to match a hand's natural curves, making it easy to hold and use.
- **Easy to use** — Backlit LCD screen designed for easy readability.

Handheld Intelligence

- **Bi-directional communication** — Two-way communication with the Control4 home automation system gives users status information as well as control of any connected device.
- **Anywhere control** — Wireless connectivity enables control of any intelligent device from anywhere in the house; no more pointing the remote at the TV.
- **Anything control** — Control an entire home automation system with this compact device.
- **Plug and play ease** — Immediately works with the Control4 home automation system.

Affordable For Every Customer

- **Surprisingly inexpensive** — Get complete home automation control at an affordable price.
- **Cost-effective functionality** — Matches typical home control touch screens and keypads in functionality — at a fraction of the cost.
- **Single source of control** — When integrated with the Control4 system, it can replace every other remote control in the house.

Turn down the lights in the den while channel surfing in the home theater. *See* what's playing on the family room stereo while cooking dinner in the kitchen — then *change* the tunes with the push of a button. *Check* the house temperature from the bedroom — then *bring it down* a few degrees before heading out with the kids.
